## **The future for Friends of ACET Uganda**

### **-consolidation at NJS**

We want to see the buildings, electricity installation and securing of the site completed. We plan to continue to support orphans for the next few years

### **-independence for NJS**

We want NJS to gain a wide support base so that in time, it could run without FAU

### **-other projects**

ACET Uganda would like to help many other communities. FAU could be part of this

### **-could you help?**

could you be a reliable long term support to NJS? £25 a year pays fees for one orphan. Could you support a child through school?

**How can you respond?**
